Director of Public Works

LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29, MALIBU EMERGENCY REPAIR OF 8-INCH-DIAMETER WATER MAIN

On December 5, 2009, a leak occurred in the 8-inch-diameter water main at 900 South Fremont Avenue in Alhambra, disrupting fire service to the Department of Public Works building. Williams Pipeline Contractors, Inc., was called to assist the Los Angeles County Waterworks District No. 29, Malibu, to repair the leak. The water main was repaired on December 6, 2009, and the backfilling of the excavation area is scheduled to be completed on December 16, 2009, at an estimated cost of \$50,000.

Williams Pipeline Contractors, Inc., is one of five as-needed, on-call emergency contractors with contracts approved by your Board on July 1, 2008. We committed to reporting to your Board all emergency repairs carried out under these contracts.
